Connect, grow, and learn together in a fun and memorable way by integrating a unique team building program or training and development workshop into your agenda. Summit programs are energizing and engaging and will foster positive relationships, rejuvenate your team, enhance team skills, and make your experience at Niagara-on-the-Lake simply unforgettable! Our skilled facilitators will be there to guide your participants throughout the experience, ensuring that each participant is fully engaged and having an enjoyable experience.

## Team Building

Summit's team building programs seek to find the perfect intersection of fun, adventure and shared experience, with an eye toward lasting results. Ideal for large groups and small, our programs can be a perfect energizer during a conference, a great kick off to a training day or a maintenance session to help keep your team on track.

When you give grown-ups permission to play, something amazing happens. People laugh together. They re-ignite that creative spark. Add a little friendly adventure race competition (for bragging rights) plus a give-back element that helps an entrepreneur start or grow their business and your team will truly be "Playing with a Purpose."

Summit's president Scott Kress climbed Everest in 2008 - a year that presented climbers with more obstacles than ever before. Breathtaking photos and videos will take your team from basecamp to the highest point on the planet. Along the way, they must work together to overcome a series of challenges - no one gets to the top alone. It takes a team.

Get that creative edge as your team produces a mosaic of collaborative artistic masterpieces. Each team member contributes unique ideas and brushstrokes. This program concludes with a stroll through the interactive Art Gallery that allows members to gain appreciation for the diverse perspectives within the team!

## DESERT Survival

What would you do if you crash-landed in the middle of the desert? Imagine you have only a few salvageable items that can either help or hinder your chance for survival. Now imagine you have a team to help you with those choices. See if your team has what it takes to get everyone back to safety.

## Step Up

Sometimes the best indicator of an organization's success lies beyond the bottom line and can be measured by the impact it has on the community in which it operates. Through a series of competitive challenges, teams will earn and assemble elements of a prosthetic leg destined for one of our global neighbours.

## Survive OR Thrive

Through demanding team challenges, this program will identify key elements that separate teams who simply survive from those who consistently thrive. Add to this an element of Corporate Social Responsibility and you have the makings of a truly meaningful team experience.

## THE Juggling ACT

Even if you're not ready to juggle for the circus, learning a new skill always increases your brainpower and a bunch of novice jugglers adds a pretty fun element to the learning process. Picking up a few coaching skills along the way will have you and your team learning a new skill together in a surprisingly short amount of time.

## PUT YOUR Chef Hat ON!

This highly competitive food adventure will challenge teams to create the ultimate culinary masterpiece to market and present to a panel of judges. A great kick-off to a conference, a pre-dinner event, or anywhere you want to add some fun to your agenda. Breakfast and dessert options are also available.

## Jump Start YOUR TEAM

Looking for a way to inject some energy and excitement into your next meeting? The Jump Start Your Team program is designed around the importance of play for our well-being. A series of playful and competitive team challenges reinforce critical team skills, communication, collaboration. A give back to a play based charity is included.

## Training & Development Workshops

Summit training workshops start off experientially to demonstrate the exhilaration found in great teamwork, followed by an understanding of how and why it is essential to focus on team performance. Then, using easy to apply tools and strategies, we teach teams how to gain commitment, build trust, communicate effectively and, of course, get results.

### EMOTIONAL Intelligence

Much of a person's success is based on their ability to be in touch with, monitor, and effectively manage their responses to a variety of interpersonal interactions. Understanding where we have healthy, under-functioning or even over-functioning qualities in various EI scales is the first step in becoming a more effective leader.

### Myers-Briggs® TYPE INDICATOR

Do you have differences that split your team? Do you find that you communicate quite easily with some people and have to make a real effort with others? We all have different personality styles that create these situations. Understanding your personal type and the types of others is critical in driving effective interpersonal interactions.

### OVERCOMING FIVE TEAM Dysfunctions

Building an effective team takes commitment and a deliberate, thoughtful approach from everyone involved. This workshop, based on the elegant and simple model described by author Patrick Lencioni provides an excellent framework for developing a high performance team.

### HIGH Performance TEAMWORK

Do you have a newly formed team or one that is simply looking for a tune-up? In this session you will experience high performance teamwork, understand its value and know how to intentionally achieve it at work.

### EFFECTIVE Leadership

Developing effective leaders is a deliberate and ongoing process. This program will inspire participants to set a compelling personal leadership vision, help them to assess their current reality and give them the tools they need for success.

### NAVIGATING Change

Is your team struggling to keep up with the rapid pace of change? In this workshop, we explore the link between our need for innovation and the challenge of coping with the natural responses change inevitably causes.
