<input type="checkbox"/> Outdoor	<input checked="" type="checkbox"/> Less Active	<input type="checkbox"/> Non-competitive	

THE IDEA

When you bring your team to the JW Marriott Rousseau you do so to help them connect, to enhance team performance, and to celebrate successes. Team building is an important part of any off-site event and the Rousseau Wine Challenge is a great way to help accomplish all these goals.

This finely crafted team building program will provide you with a brief wine tasting and educational seminar. What you learn will be put to the test in a series of fun and engaging team challenges.

In teams you will compete to become the wine challenge winners as you move through a series of wine related challenges. Non-drinkers will have a great time as well.

Your team will have a great time together, learn a bit about wine and grow as a team.

THE DETAILS

- The entire group will be taken through a brief wine identification seminar, highlighting how to view, smell and taste a glass of wine in order to fully appreciate it
- The group will then be split into competitive teams and be challenged with a series of wine related activities to earn points
- Some activities will be intellectual, some physical, and some will require an out-of-the-box approach
- The final task will require the team to use the information gained from the wine seminar to properly identify a mystery wine

THE RESULTS

- Your team will have a great time together while enjoying some nice wines and learning a few new things
- This events combines a great social event with a guided team building experience to help your team connect and grow
- Team and personal relationships will be enhanced having a positive impact on all team interactions

TEAM BUILDING PROGRAMS

We tasted wine, went orienteering through the snow, and identified aromas. This was the most creative and innovative team building exercises I have experienced.
